Remit Topic	Change in WBA Affiliation Fees & structure
Remit Title	Changing the WBA Affiliation Fees & structure from the 2016 season
Remit Explanation	<p>The purpose of this remit is to change the current affiliation fees &amp; structure to a fee model which will reduce the total amount of affiliation fees paid by clubs to the WBA by REMOVING the \$15 affiliated member levy while changing to a more "user-pay" model allowing the WBA to recover the shortfall in affiliation fees through a new stadium membership &amp; court hire fee proposal and a small increases of entry fees for tournaments.</p> <p>The traditional Badminton Club has been struggling for some time due to the changing landscape in sport participation which has moved heavily to casual participation versus club membership. This proposal will take financial pressure of most of our bigger affiliated clubs where other, smaller, clubs will remain stable.</p>
Remit Recommendation	That the AGM adopts the new affiliation fee proposal as tabled with the aim to reduce financial pressure on clubs while also simplifying the affiliation fee structure.
